# Zapptizer Product Information

Zapptizer® disinfecting sanitiser contains active biocides specifically created for cleansing and disinfecting both hard and soft surfaces. Zapptizer® is delivered as a unique mist spray ensuring effective sanitising and disinfecting of even the most difficult-to-reach areas.

Zapptizer® ingredients deal rapidly and effectively with an extensive list of bacteria, viruses, fungi and moulds, and have been tested against small non-enveloped viruses ("hardest-to-kill" category) which can include Poliovirus, Norovirus and Feline Calicivirus. They have also been tested effectively on enveloped viruses (easiest-to-kill category) which can include Coronaviruses and Type A Influenzas.

## TYPICAL APPLICATIONS

Construction sites  
Welfare areas  
Accommodation  
Toilet areas  
Plant cabs  
Truck cabs  
Tractor cabs  
Machine operator areas  
Staff amenities  
Waiting rooms  
Public transport  
Aircraft  
Airports  
Rental cars  
Office areas  
Canteens  
NHS and hospitals  
Food processing areas  
Sports stadiums  
Leisure and fitness  
Swimming pools  
Hotels and restaurants  
Van fleets  
Production lines  
Car dealerships  
Showrooms  
Reception areas  
Touchpoints  
Racing industry  
Public amenities  
Play equipment  
Production lines  
Shopping centres

On 11 March 2020, the American Chemical Council stated "As COVID-19 is a new strain of coronavirus there is no product on the market today that can claim to be proven to kill the virus. However, products that are effective against non-enveloped viruses (Hardest-to-kill category) are likely to be effective against COVID-19". ACC also stated they expect products that are effective against enveloped viruses (easiest-to-kill category) to be also effective against non-enveloped viruses.

## ADVANTAGES

- Alcohol-free
- Non staining
- 4 metre hose
- Non corrosive
- Fully portable
- No set-up time
- Streak-free finish
- Unique canister kit
- Kills 99.9% of bacteria
- No substance abuse risk
- Completely non-flammable
- No issue with skin drying, irritation, flammability
- Effective, residual action unlike alcohol-based products
- Meets BS EN 1276 and 1650 for food prep area sanitisation/disinfection
- Effective control of widest range of micro-organisms, bacteria, viruses and fungi

## HANDLING AND STORAGE

Consult material safety data sheet before use  
DO NOT store at temperatures over 50°C  
Avoid exposure to direct sunlight  
DO NOT store directly on concrete floor  
For optimum performance, store at 18°C  
Release pressure in hose before disconnecting  
Test product on a small area first to ensure suitability  
DO NOT spray on broken skin  
Stop use if rash or irritation occurs  
Avoid prolonged spraying on skin

## CHEMICAL TECHNICAL DATA

Odour	Pleasant fresh odour
Flammability	Non-flammable
Fluid pH	5.5 (Skin Compatible)
Alcohol Content	0%
Packaging	22ltr canister
Shelf Life	6 months from manufacture date

## DIRECTION FOR USE

Connect gun and hose using a spanner  
Connect hose to canister with a spanner  
Ensure that all connections are tight  
Turn on using the valve on canister  
Spray from up to 300mm from surface  
Turn valve off once treatment is finished

## EMERGENCY ACTION

In case of eye contact flush with plenty of water.  
Although ingestion is almost impossible, should it occur deliberately, drink plenty of water and call for medical assistance.
